

# CMT 252 : Project Management

This course focuses on the processes and tasks required for successful management of construction projects based on the NCCER curriculum. Students will gain a thorough understanding of all aspects of project coordination and contract administration. Topics will include project delivery systems, safety administration, project communication, interpersonal skills, conflict resolution, contract interpretation, construction planning, estimating and cost control, resource control, and continuous improvement. Ethics as it relates to project management and customer relations will also be discussed.

Prerequisite: [BCT 220](#) or [CMT 251](#).
